RECLAIMED & SUSTAINABLE WOOD PRODUCTS

**TIMBER FRAMES + RECLAIMED WOOD = LOVE**

We fell for reclaimed wood in the 80's when we discovered its beauty, history, and quality. Since then we've rescued more than 20 million board feet of wood from landfills, rot, and other sad endings. From the hand-hewn agricultural and industrial timbers our country was built on, to weather-worn barn siding and mineral-cured vat stock, our craftsmen give this extraordinary wood new life as timbers, wide-plank flooring, cabinetry, and doors — in a way that's worthy of the wood's story and your home. Ask your timber framer to contact us for reclaimed timbers and flooring, or contact us directly.

Made in the USA from our shops in New York and Oregon | [pionermillworks.com](http://pionermillworks.com) | 800.951.9663 |
